**RE: Winter Road Weight Restrictions**

The Saskatchewan Ministry of Highways & Infrastructure has recently announced the following:

- That Winter Weights remain in effect until the last day in February at which time restrictions may be imposed until March 14th. On March 15th at 12:01 A.M. winter weights are no longer in effect on any provincial road and summer weights apply.
- After the last day of February, if weather conditions are unfavourably mild, Saskatchewan Highways may issue weight restriction orders on the allowable weights of some provincial highways. Winter weight restrictions will limit allowable weights down to normal summer weights

This is to confirm that the Council for the R.M. of Eldon No. 471 has opted out of the Saskatchewan Ministry of Highways & Infrastructure Winter Road Weight Restriction Program. This means that normal winter weights will be allowed to be hauled on municipal roads within the jurisdiction of the R.M. of Eldon No. 471 for the next 2 weeks in March 2010 even if the highways in the area are restricted down to summer weights. However, on March 15<sup>th</sup> at 12:01 A.M. winter weights will no longer be in effect on any R.M. of Eldon No. 471 municipal road and summer weights will apply.

Information on weight restrictions can be obtained by accessing the Saskatchewan Highways and Infrastructure website at: [www.highways.gov.sk.ca](http://www.highways.gov.sk.ca)
