

## Plan Review Checklist – Renovations

**Home Owner/Builders:** The following information is required when submitting an application for a residential building permit and before a building permit is issued. The plan review will not begin until all required information is provided.

### Required Information:

- 2 sets of **Site Plans** with the following information
  - Show size and location of existing buildings on property
  - Show lot dimensions and shape
  - Show distance between buildings and property lines
  - Show North direction arrow
- 2 sets of **Renovation Layout Drawings** with the following information
  - Interior wall locations (existing and new)
  - Window sizes and locations (existing and new)
  - Door sizes, location and swing direction (existing and new)
  - Heating unit/system location (if applicable)
  - Include description of renovations and indicate any possible structural alterations that are being made.
- 2 copies of the **Building Permit Application** properly filled out

**Required On-Site Inspections:** (inspection requirements may change depending on the project type and size)

- Plan Review (Prior to the commencement of any construction)
- Framing (Prior to insulating and applying vapour barrier to the exterior walls)
- Insulation and Vapour Barrier (Prior to covering walls and ceiling with wall/gypsum board)
- Final (Prior to moving in or occupying the building)
